

Shopping Cart Discount Engine

⌚ Objective

Apply tiered discounts to a cart total based on membership status.

📁 Starter Files

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8" />
  <title>Discount Calculator</title>
</head>
<body>
  <h1>Shopping Cart Discount</h1>
  <script src="conditions-discount.js"></script>
</body>
</html>
```

☑ Your Task

- Prompt for the **cart total** (e.g. `prompt("Enter cart total:")`).
- Prompt for **membership status** (`prompt("Are you a member? (yes/no)")`).
- Apply discounts:
 - Member & total $\geq 200 \rightarrow 20\% \text{ off}$
 - Member & total $< 200 \rightarrow 10\% \text{ off}$
 - Non-member & total $\geq 200 \rightarrow 5\% \text{ off}$
 - Otherwise \rightarrow no discount
- Calculate and log:

```
console.log(`Final price: ${finalPrice.toFixed(2)}');
```
